

NEW PRODUCT

6450 Series Outside Trim

Rim Panic Exterior Lever Handle Trim

Typical Configurations:

#6450 – Standard Aluminum Finish

#6450xDBA – Dark Bronze Finish

xK – Adds 1-1/8" Mortise Key
Cylinder with Standard Cam

Exterior Lever Handle

The 6450 series exterior lever handle trim mates with the 6495 series rim panic devices to allow mechanical latch retraction from the outside.

Attractive Slim Design

Lever handle trim mounts easily on standard narrow stile glass and aluminum doors for a clean modern look.

Uses Standard Mortise Cylinder

The lever handle trim can be supplied with a key cylinder or will accept a standard cam 1-1/8" mortise cylinder supplied by others to be compatible with the building key system.

Aluminum or Bronze Finish

Lever handle trim is available in standard aluminum or dark bronze finishes to be compatible with modern storefront doors and frame design.

Field Selectable Handing

Handing of the lever trim is field reversible for ease of installation.

Quick Installation

Installation is quick and simple, mating easily to the 6495 rim egress bar.

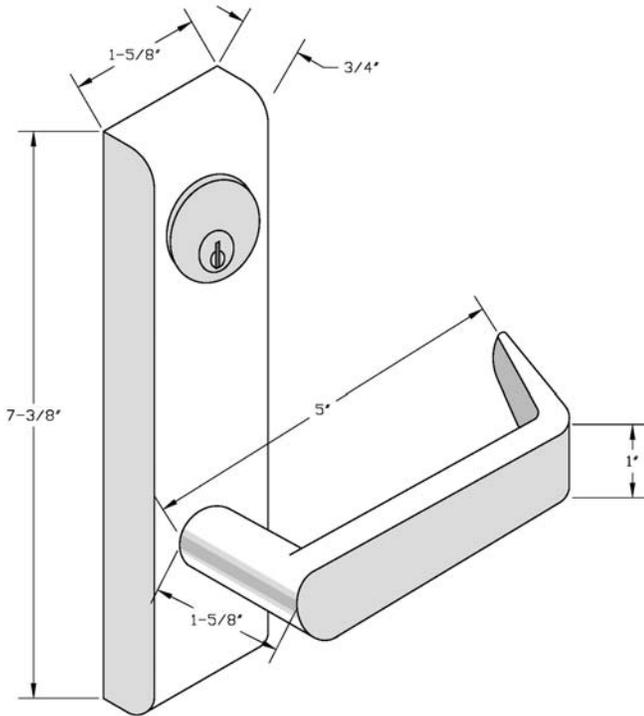

Durable Construction

Designed with durable external and interior components for long lasting dependable service.
